

## **DOE Lessons Learned Template**

Title: Waste Handling

Date: 07/06/05

Identifier: 2005-RF-20

Lessons Learned Statement: Minimize the amount of handling of waste.

Discussion of Activities: Waste containers such as banded cardboard boxes were located in the area where the dismantlement activities were being performed instead of a centralized area. Once the container was filled, the container would be moved and loaded directly into the shipping container, thus removing a transportation step and minimizing handling.

Analysis (May be incorporated into the Discussion):

Recommended Actions:

Estimated Savings/Cost Avoidance (if applicable):

Originator: Jeff McMillan
